SAINT-GOBAIN

Highland Slate™: when your home is your castle

AFFORDABLE OLD-WORLD LUXURY

The elegance of a Scottish estate.

The ruggedness of a windswept landscape.

And an enduring value that inspires compliment after compliment.

Highland Slate is performance on or off the rocky bluffs of Scotland. It's natural, affordable protection – from the ancient Highlands to a tree-lined neighborhood.

Like A Rock

Cut to a true craggy profile, Highland Slate has the look, texture and tone of natural slate with a dark shadow line to accentuate its appeal from the curb. Each tab is individually colored by state of the art Precision Color technology to provide a rich, deep, hue and its four-across tab is the ideal design to deliver color, contrast, and perfection when mounted.

A Perfect Storm

Wind, rain, snow, ice – this slate-like shingle performs at its best when the weather is at its worst. Highland Slate is rated where the winds howl – 110 mph – and it carries a full wind-resistance warranty.

Plus, the Impact Resistant version protects against the impact of hail and ice with a shingle that's among the best in the industry.

Suit of Armor

The weave, pattern and fleck of natural slate is in the essence of the character that Highland Slate brings to your roof. With six premium color blends, Highland Slate is a smooth finish to rugged protection.

Everyday Majesty

Beauty. Value. Protection. And a lifetime limited transferable warranty against manufacturing defects on residential applications. Protect yourself against the elements with the old-world affordable luxury of Highland Slate.

Shown in Black Granite

WinterGuard™

Waterproofing underlayment prevents leaks caused by ice dams and wind-driven rain in the vulnerable areas.

Roofers' Select™ or DiamondDeck™

High-performance underlayment is a secondary barrier against leaks for the entire roof.

Shingles and Accessories

High-quality shingles are covered by one of the best warranties in the business. Accessory products - starter course, and hip and ridge cap shingles - complete your roof from start to finish.

Ventilation

Proper attic ventilation improves air circulation. Air Vent, Inc. ventilation products are recommended for use in connection with the Integrity Roof System.

Enjoy the extra confidence of SureStart™ Protection

Your Highland Slate warranty is strong on its own. But, you also get the added confidence of SureStart protection. That simply means if any problem due to a manufacturing defect occurs during the SureStart period, call us. Upon inspection, we'll cover labor and material replacement costs at 100%.

tips for selecting a roof

1. Think big – View a full-sized shingle, not just a swatch or sample.
2. Be real – Look at actual houses where the house and roof color combinations are similar to what you're considering.
3. Watch the light – As you look, notice how colors appear under changing light conditions and at various times of day.
4. Consider the pitch – Look for roofs with a similar pitch to your own. A roof's pitch affects the way you see its color.
5. Ask your contractor – They might be able to point you to a home where they've installed a roof of your style and color.

Highland Slate™ Specifications & Code Compliance

- Single layer fiber glass-based construction
- Blended shades and dimensional appearance of natural slate

green & growing.

We've put green thinking behind our shingle and environmentally sound manufacturing ahead of standard industry practices to produce a product line that is green and growing.

CertainTeed is committed to resource conservation. Our roofing manufacturing facilities recycle close to 90% of the production waste into asphalt materials used for the construction of roads. We also integrate recycled content into many of our packaging needs including corrugated rolls and kraft paper.

They're small steps in a big world. But we're green and growing everyday. It's a commitment we take seriously at CertainTeed.

for the home of a lifetime
